## **NATIONAL AWARDS PRESENTATION TO LOCAL COMPANY Spray-Tec "Brings Home the Hardware"**

**Jacksonville, Florida (February 14, 2013):** The Spray Polyurethane Foam Alliance (SPFA) presented their national awards of excellence last Wednesday. Spray-Tec, headquartered in Shelbyville, Kentucky, emerged a grand prize winner.

Spray-Tec was one of only two nationwide winners who captured the crystal sculpture awarded in the category of Commercial Wall Foam. Nominations were received throughout the previous 12 months from across the country for this annual gala event. Culled from an extensive list to four finalists, Spray-Tec's work on the Bluegrass Community & Technical College's student service building was judged by peers to be the best in the industry. Nominations are judged independently by a panel of industry experts, who place their vote anonymously online.

Spray-Tec has been an accredited spray foam contractor for many years. Meeting professional standards set by the Alliance, Spray-Tec commits to improving their staff and product through continual education and accreditation. As a national award winner, they are poised to share their expertise on many local residential and commercial insulation projects.

The SPFA (Spray Polyurethane Foam Alliance) is the voice and educational arm of the polyurethane foam industry. SPFA delivers training, industry certification, leadership on energy conservation, the environment, health & safety, building codes and technical advances in the industry. Members are professional contractors, manufacturers, and distributors who strive to educate, regulate and improve the trade.

For additional information, pictures or interviews, please contact Spray-Tec at (502) 633-5499.
